

Terri Wilhelm

I love to draw so I practice all the time. I am a prolific artist and illustrator with shelves of sketchbooks filled with illustrations, characters, vignettes, paintings, hand lettering, doodles and ideas. I love to create nature illustrations, animal art, characters, surface pattern designs and maps.

My creative work is inspired by my adventures in nature, my love for my park-inspired backyard, and a wanderlust for exploring the outdoors. I enjoy hiking in the woods, kayaking, swimming in the ocean and biking the trails.

My mission is to bring joy to people with playful illustrations and open up imaginations with the wonder and magic of nature and storytelling.

I'm currently illustrating a children's picture book for an author I met at a women's networking event.

I would love to work full time illustrating more picture book illustrations, editorial illustrations, promotional materials, brochures, booklets, signs, maps and more.

Illustration, design, hand-lettering

Let's work together!

Contact me if you're interested in working together on custom illustration work, licensing illustrations available from my portfolio or creating something new.
